**MMT**  
Long life satellite tracking unit

# MMT

## Long life tracking unit

MMT is a low cost “place and track” satellite tracking unit with a long life battery and near global coverage.

Just attach it to your asset and it will report the location and motion status of your asset for up to 7 years.

Used with TracerTrak, the MMT provides an ideal solution for long life tracking of your remote assets.

MMT's low profile and stealth design allows it to be easily installed without the need for harnesses, external power or antennas.

# Features

Self contained, simple installation

Battery powered, no external power or wiring harnesses required

In the field activation

Up to 7 years battery life

Increased frequency of reporting available when in motion

## MMT Specifications

Size	102 x 280 x 26 (mm)
Battery life	up to 7 years (based on two updates per day)
Enclosure rating	IP67
Integrated motion sensor	Yes
Primary power source	Battery - Primary lithium cell
Message triggers	Time of day, motion alarm
Other certifications	Intrinsic safety (UL class 1, division 1 groups A,B,C,D) for US and Canada
