

## Lone Worker Safety & Satellite Communications

SOS

Check-in/OK

Voice & SMS

Tracking

The Iridium Extreme is the full lone worker safety package - a rugged handset with full satellite phone functionality plus the benefits of emergency monitoring and tracking capabilities on Tracertrak. The Iridium Extreme uses the Iridium Satellite Network with 100% global coverage and also comes equipped with an in-built GPS and dedicated SOS button. With Tracertrak the Iridium Extreme becomes so much more – use the check-in function to automate your check-in schedule, saving your organisation time and money and realising significant efficiency gains. In the event of an emergency your workers can pin-point their exact location, and use two way text messaging to communicate the specific nature of the emergency. With full voice functionality and Tracertrak's lone worker safety solutions you can keep working while we keep watch.

Inbuilt GPS

GPS tracking with definable track frequency

Dedicated hard capped SOS button - generate SOS alerts in Tracertrak

Smallest and toughest Iridium handset ever IP65 jet water and dust resistant

Check-in function for automated check-in schedule monitoring in Tracertrak
