

IDEAL FOR FISHERS WHO WANT AN AUTOMATIC VMS SOLUTION

RockFLEET by Pivotal is a vessel monitoring system (VMS) solution that is ideal for fishers who want an affordable and installed satellite based solution to meet their QLD DAF VMS obligations. Once installed and connected to vessel power RockFLEET will automatically transmit its location to QLD Fisheries and Tracertrak.

RockFLEET is a waterproof and ruggedized solution that meets the VMS requirements introduced by the Department of Agriculture and Fisheries, Queensland. RockFLEET by Pivotal has a low upfront purchase price and is simple to install and operate. Pivotal's low running cost of just \$55 inc GST per month covers the cost of satellite airtime, submission of the VMS data to DAF, as required under the regulation, and access to Pivotal's online Tracertrak portal, which provides real-time and historical location information to the licence holder.

RockFLEET offers two mounting options, a deck mount that allows mounting to a flat surface, or a pole mount to affix the terminal to a rail (both sold separately).

PRODUCT DETAILS

- **Powered by** 9-30v DC with integrated backup battery
- **Transmits using** Iridium satellite network
- **Size** 130 mm (D) | 50 mm (H)
- **Weight** 350 grams
- **Tracking interval** Every 5 minutes while powered and away from home port
Every 24 hours while in port or unpowered

WHY PIVOTEL?

- Dedicated team of satellite experts based in Australia here to support you
- Affordable hardware and subscription with suspension option available when not required
- Meets the QLD DAF VMS tracking regulation

• Monthly Access Fee (Unlimited 5 Minute Tracking)	\$55.00 inc GST
• Activation Fee	\$25.00 inc GST
• Monthly Fee While Suspended (\$25.00 inc GST Reactivation Fee Applies)	\$10.00 inc GST

HOW IT WORKS

Pivotel RockFLEET plans use the Iridium Mobile Satellite Network. Satellite reception limitations and some exclusion zones apply. Prices include Australian GST and are subject to change. Visit www.pivotel.com.au/coverage for a coverage map. A compatible Iridium satellite device must be purchased from Pivotel to access the Pivotel Iridium satellite VMS service (see device pricing). Pivotel may apply call barring where fraudulent use is suspected or for credit control purposes. You will receive a bill by email from Pivotel listing any payments you have made during the billing period, and a summary of your service usage to enable you to keep track of your overall service usage and monthly spend. Itemised billed and unbilled service usage is available in the secure Selfcare website at www.pivotel.com.au/selfcare. An itemised bill listing all of your service usage events is available on request. Pivotel plans are available to credit approved customers only. Minimum contract term is 36 months. Minimum cost is \$2,005.00 over 36 months (includes \$25 activation fee) + RockFLEET device. The billing cycle is a calendar month, you may receive a pro rata access fee on your first Pivotel bill, calculated from the actual date of service connection to the date of your first bill.
